DETAILED ACTION

1. There is great uncertainty surrounding the pre-amendment associated with the instant application. This amendment does not comply with either of the last two versions of 37 CFR 1.121 (pre and post 7/30/2003). The amendment identifies claim 1 as amended, yet claim 1 is exactly the same as claim 1 of U.S. Patent 6,609,160 to Nishida (parent case). There is no identifier associated with claim 4. Further, there is no marked up copy necessary under the older version of 37 CFR 1.121, and not a complete listing of the claims as required by the current version of 37 CFR 1.121.

Double Patenting

2. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

3. Claims 1-6 rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-6 of prior U.S. Patent No. 6,609,160. This is a double patenting rejection.
